

GIS Integration with Laredo/Tapestry – Otter Tail, MN

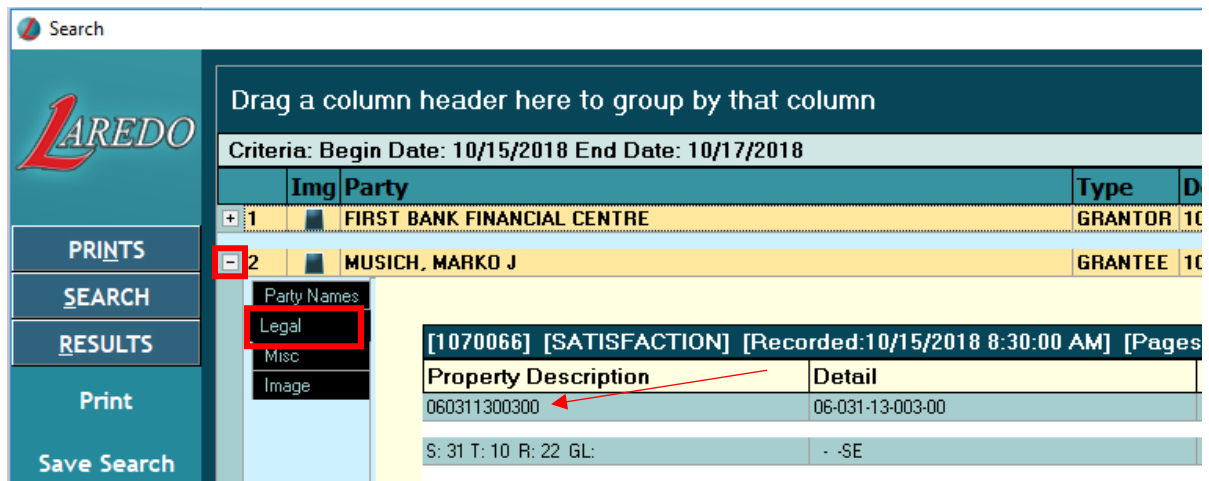

The county of Otter Tail has elected to implement the feature of linking their GIS website with Laredo and Tapestry. It is as easy as performing a search in Laredo or Tapestry, and then clicking on the indexed parcel number in order to locate that parcel on their county GIS website. Below are brief instructions on how to utilize this feature in both Laredo and/or Tapestry.

Laredo with GIS:

1. Perform a search in Laredo as you normally would – once searched you will be directed to the results list screen

2. Click on the plus sign (+) to the left of the search result record you wish to view
3. Then click on the 'Legal' tab in order to view the property description details

4. In order to locate the specified parcel number on the GIS website, click on the unformatted parcel number directly below the heading "Property Description"
5. Once you click on the unformatted parcel number, a tab in your internet browser will direct you to the selected parcel number on the Otter Tail County GIS website

Tapestry with GIS:

1. A Tapestry searcher will go to <https://landrecords.net> in order to perform a search
2. Once the search is performed they will see the results list based on their search
